Introduction

"We did what we could. Remember us."

- The words of Dr. Mahmoud Abu Nujaila, written on a Gaza hospital white board; he was killed in an Israeli hospital strike (4 December 2023).

On 7 October 2023, Hamas launched an attack on Israel that resulted in the death of over 1,200 Israelis, of whom 800 were civilians, and the taking of 240 hostages. The attack was widely condemned. In the wake of this attack, Israel has been conducting a severe and indiscriminate bombardment of Gaza. The Gaza Strip is a narrow piece of land approximately 365 square kilometers and one of the most densely populated places in the world, home to about 2.3 million people, almost half of them children. As of December 30, the Palestinian death toll since October 7 is estimated at 21,110, about 70% of whom are women and children. During this extensive assault, Israel has consistently committed several war crimes and violations of international law. Alongside the death and destruction inflicted on Gaza, Israel has also imposed a brutal blockade of the Gaza Strip that prevents essential food, water, medicine, fuel, shelter, and other humanitarian imports from entering. Moreover, there is substantial evidence demonstrating the Israeli government's genocidal intent, corroborated by Israel's militaristic onslaught against the Palestinian people.

This document is a thorough, albeit non-exhaustive, compilation of Israel's violations of international law during the ongoing 2023 Israel-Hamas war, citing reputable journalistic sources and international organizations for evidence of these crimes. While the focus is mainly on Gaza, it includes crimes committed by Israel in the West Bank and Lebanon (295 and 23 civilians killed, respectively). The document's primary purpose is to serve as a ledger of Israel's crimes against the Palestinian people, and of the horrific and unacceptable suffering endured by the Palestinians. Furthermore, it is intended to educate people on the reality of the situation, with a focus on facts as opposed to speculation.

With the exception of a few salient instances, the events cited herein occurred between October 7 and December 21. However, it is important to note that the crisis did not begin on October 7, with Gaza being under a brutal and illegal siege since 2007, and undergoing periodic massacres (such as "Operation Cast Lead" and "Operation Protective Edge"), with almost 70% of the Gazan population being refugees or descendants of refugees from the 1948 ethnic cleansing of Palestinians (known as the Nakba). In enumerating the crimes committed by Israel, this document cites specific articles of the following international legal frameworks:

- The Rome Statute of the International Criminal Court
- Additional Protocol I to the Geneva Conventions
- The Fourth Geneva Convention
- Protocol III of the Convention on Certain Conventional Weapons

May this ledger of crimes echo the call for an international legal and humanitarian response, preserve the truth of Gaza's martyrdom, and invoke the lessons of "never again".

Violations of the Rome Statute of the International Criminal Court

1. Genocide (Article 6)

Now go, attack the Amalekites and totally destroy all that belongs to them. Do not spare them; put to death men and women,

children and infants, cattle and sheep, camels and donkeys" (1 Samuel 15:2-3). This invocation of the violent biblical passage is a rhetorical endorsement to kill all, including women and children, an act that implies a genocidal intent.

This protection includes a prohibition of the use of methods or means of warfare which are intended or may be expected to cause such damage to the natural environment and thereby to prejudice the health or survival of the population."

Violations of the Fourth Geneva Convention

1. Hospital and safety zones and localities (Article 14)

Article 14: "In time of peace, the High Contracting Parties and, after the outbreak of hostilities, the Parties thereto, may establish in their own territory and, if the need arises, in occupied areas, hospital and safety zones and localities so organized as to protect from the effects of war, wounded, sick and aged persons, children under fifteen, expectant mothers and mothers of children under seven. ..."

- The safety zones designated by Israel in southern Gaza did not protect children from the effects of war; Israel instructed the Palestinians to head south for the safety zone, then proceeded to bomb the area designated as a safety zone, killing and injuring civilians, including children.
 - *Al Jazeera*, "[Photos: Israel bombs Gaza areas it declared safe zones for Palestinians](#)", 9 December 2023.

Article 32: "The High Contracting Parties specifically agree that each of them is prohibited from taking any measure of such a character as to cause the physical suffering or extermination of protected persons in their hands. This prohibition applies not only to murder, torture, corporal punishment, mutilation and medical or scientific experiments not necessitated by the medical treatment of a protected person, but also to any other measures of brutality whether applied by civilian or military agents."

4. Food and medical supplies for the population (Article 55)

Article 55: "To the fullest extent of the means available to it, the Occupying Power has the duty of ensuring the food and medical supplies of the population; it should, in particular, bring in the necessary foodstuffs, medical stores and other articles if the resources of the occupied territory are inadequate. ..."

- Due to the Israeli bombardment, in just 12 days after a humanitarian pause, Gaza's food security drastically worsened: severe hunger rose from 38% to 56%, nearly all IDP households reported inadequate food, and reliance on extreme coping strategies

surged from 82% to 96%. Thus, Israel has failed to ensure sufficient food supplies for the Palestinian people.

5. Hygiene and public health (Article 56)

Article 56: "To the fullest extent of the means available to it, the Occupying Power has the duty of ensuring and maintaining, with the cooperation of national and local authorities, the medical and hospital establishments and services, public health and hygiene in the occupied territory, with particular reference to the adoption and application of the prophylactic and preventive measures necessary to combat the spread of contagious diseases and epidemics. Medical personnel of all categories shall be allowed to carry out their duties. ..."

- **The fuel cutoff in Gaza has halted desalination and waste collection, escalating the spread of bacterial infections and disease. "In health facilities, damaged water and sanitation systems, and dwindling cleaning supplies have made it almost impossible to**

maintain basic infection prevention and control measures." Israel has failed to ensure public health and hygiene.
